

bro detailing is missing here ,, that is most imp here ... please check this

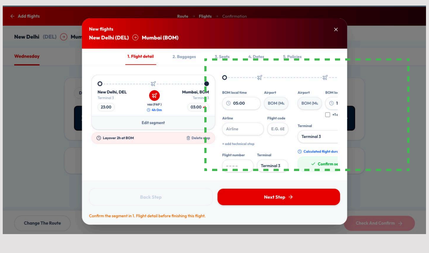

Brother, adding an Edit button here is important. If the flight is open for sale, they should be able to edit the seat availability, policies, and prices.

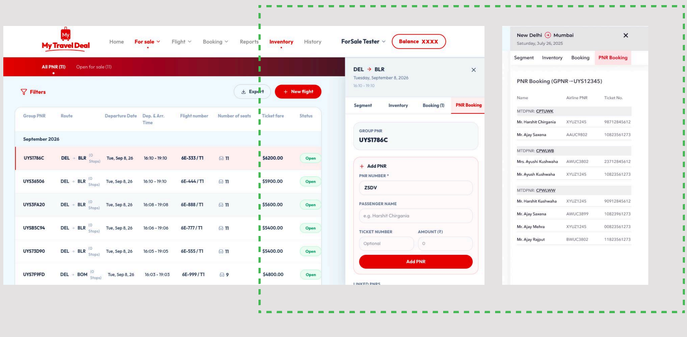

Add booking details please here ,

On this screen, these buttons are not responding: Add Flight Series and Add Return Flight. They should be clickable and functional.
please check my figma file please

On this screen, I'm not able to change the airport name. It is being populated automatically, and there is no option to edit it. please check my figma file please

Please check the "PNR Booking Details" section and compare it with my Figma screen. Also, here we should not add a new flight; instead, we should add a new PNR.
